

Much like our **republic** here in America, our POA is **set up** to vote for individuals to **SERVE** on governing bodies **to make decisions** for the growth and prosperity of the community.

If everyone had “a seat at the table”, there would be no need for **yearly** elections.

**Rather**, we encourage people to **join** committees to share their talents, thoughts, and ideas to participate in the **legwork** that makes this community the amazing place that it is.

Tonight, you discovered that Mr. Barajas and Mr. Moore are **two litigious men** that fund causes to **sue** their neighbors to get what they want.

Mr. Barajas says ... service above self ... but his actions says otherwise ... I'll represent you as a neighbor, but I don't want one next to me on the lot that's for sale.

Mr. Moore has motioned several injunctions against the community through his contributions ... And as result of his donations we have had to defend these legal demands using your POA lawyer.

**YOU** have and **will** continue to pay for these lawsuits as property owners.

For months now you have seen and heard a lot of misinformation, half-truths, and outright falsehoods being circulated online and in print about me, John, and the current board.

It's been a mission of **personal destruction** with no thought about the **collateral damage** to our **spouses** or what the greater New Bern Area thinks of our community.

I've read the new candidates' literature and, unfortunately, a **VISION** is exactly what they're **missing**. **No ideas** about how to generate revenue, no strategies for business, no plans for growth. **Just vague promises** ...

**John and I** have delivered ... on our promises ... in just **two years!**

If you believe in financial stability, a secure neighborhood, continuing infrastructure improvements, growing non dues revenues and proven executives to run a 5-million-dollar community I ask for your vote **again** in this election.

I invite you to visit [FH...forward.org](http://FH...forward.org) to learn more about John and I and our hopes for the community that we love so much.

That is **FH ...Forward. Org!**
